

## **CCTV**

The outside of the premises is protected by CCTV. This is used for security reasons only.

Footage will only be reviewed by members of the household, unless something becomes a police matter, then it may be sent to the appropriate authorities. The information will be retained for no longer than 30 days in line with current retention policies.

There is CCTV in the sleeping room but this does not record – it only shows live stream accessed by myself only.

I am registered with the Information Commissioners Office (ICO) to comply with the Data Protection Act 1998. (General Data Protection Regulation 2018)
